

Profile

DWIGHT KNAPP

Dwight Knapp charted his path in real estate while still in high school. An after-school job turned into a hands-on, deep dive into the management of a real estate business, and led to a 30-year career in real estate and finance. Energized by the dynamic nature of the real estate industry, Dwight manages the interplay between finance, corporate risk, information technology and operations. As the newest member of the Melvin Mark executive team, his financial acumen and strategic planning skills are already making an impact on the company's business operations.

"Some people find it hard to believe but finance and accounting can be very rewarding and pretty exciting. I have the unique position of being involved in every aspect of our real estate business -operations, development, leasing and financing - and get to see how they all blend together to support a really strong company."

PROFESSIONAL EXPERIENCE

Dwight has been fortunate to work for terrific mentors and leaders, who taught him all aspects of the commercial real business. In return, he brought a knack for technology to help companies streamline back-office operations, reporting and advance payment systems. He got his start as a controller in 1987 and moved on to financial leadership roles with Forum Properties, Insignia/ESG, Guardian Management and Colliers International.
